

RESERVE BANK OF INDIA Department of Regulation Central Office, Mumbai

Ref.No. DOS.CO.CSITE.SEC.1/31.01.015/2026-27 Date: June 27, 2026

To: All Scheduled Commercial Banks

Subject: Master Direction on Digital Payment Security Controls and Risk Mitigation

In view of the increasing threat landscape in digital banking infrastructure, the Reserve Bank of India has issued the following immediate mandates for all commercial banks:

1. IT Security Infrastructure: All banks must immediately upgrade their internal firewall configurations and implement Zero-Trust Network Access (ZTNA) across all branch terminals. The IT Security department must complete this network audit and deployment within 45 days of this circular.

2. Compliance & Reporting: The central Compliance division is required to draft a revised "Digital Fraud Response Policy." This policy must be submitted to the RBI audit portal by the end of Q3 2026.

3. Risk Management: The Risk Management team must conduct a thorough stress test on all high-value transaction gateways and freeze any accounts flagged for suspicious international wire transfers exceeding ₹5,000,000.

Non-compliance with these directives will result in penal action under Section 47A of the Banking Regulation Act, 1949.

Yours faithfully, Chief General Manager-in-Charge
